The alfalfa farms are beautiful and will doubtless yield an abundant crop the coming season.

The acreage of oats will be large this year, the wheat is looking excellent and promises a fine yield.

There is a great deal of new land being turned with a view to planting larger crops this coming year.

The merchants are receiving farm implements by the car load and the farmers are taking them to the country almost by the wagon load.

Elder Watley, pastor of the Baptist church at this place has just returned from Waco where he attended the meeting of the Baptist board of education.

Elder Emmons, pastor of the Presbyterian church of Canadian, will remove to Missouri soon. His place here will be filled by an able minister from Dalhart.

One of the horses had a leg broken, and the other horse was very badly cut with wire.

BONNIE.

The South and Republicanism.

Col. John S. Wise thinks that "if President Roosevelt continues to appoint negroes to federal offices in the North and ex-Confederate soldiers in the South, then the South will go Republican."

It is barely possible the Colonel is having a little joke to indulge his risibles. But if he is serious—and Virginians usually are—he has placed a low estimate on the sons of the South.

Not that it would be impossible for the South to go Republican, but it were absurd to suppose that her people could be moved from the ancient moorings by the proper distribution of pie.

Right now the South is a bit Rooseveltian, but not because of appointments to office; not forgetting some of his mistakes, but because he is apparently seeking to rid the country of monopolistic abuses.

In other words, Mr. Roosevelt having measurably adopted the Southern view as to the evil of special privilege, our people are disposed to indulge in a bit of slang and say, "Good thing; push it along."

Of course there is no telling how long Mr. Roosevelt will remain in the saddle as a fancied Trust Buster. He is a bit impulsive—liable to take off after a lone derelict and let the main herd escape.

But even were the South disposed to follow Roosevelt to the limit, it could not land on the Republican side, because of the fact that his party is not with him. The recommendations he made in his annual message were gently laid on the shelf by congress.

Should Mr. Roosevelt revert to the position he once held concerning the tariff he would land on the Democratic side. But that is not probable. He is hedged about as is the czar—the autocrats of privilege will see to it that he takes no such step in behalf of the masses.

Mr. Wise will not go down in history as a prophet of great renown. —Waco Times Herald.

It includes lectures and speeches delivered by him on various occasions, and an important chapter on municipal ownership. AMARILLO REAL ESTATE AND LIVE STOCK ASSOCIATION

Believing that the best interests of the Real Estate and Livestock men of Amarillo, as well as those patronizing them, can best be conserved through systematic effort and co-operation, we, the undersigned Real Estate and Livestock men of Amarillo, met and proceeded to organize a Real Estate and Livestock Association. It is the policy of the Association that parties having property for sale shall list said property with only one firm, but it is agreed that each member of the Association can sell said property at prices as listed, but in case the agent selling has not the property listed it is understood and agreed that the agent having the property listed shall share the commission and thus enable him to be in a measure remunerated for any expense he may have incurred through advertising the property. Under this plan the party having the property for sale has the co-operation of all the different members of the Association and his chances for selling are augmented in proportion as the membership exceeds one firm as formerly.
